

ARBIN CHOUDHARY

Frontend Developer · Technical Educator · Media Production

Basundhara, Kathmandu, Nepal | +977 984 257 4444 | arbin.choudhary789@gmail.com | arbin-portfolio.vercel.app

PROFESSIONAL SUMMARY

A versatile professional with hands-on experience across frontend web development, technical education, and live media production. Skilled in building user-focused web applications with React and JavaScript, teaching technical and academic subjects effectively, and coordinating fast-paced production workflows. Seeking opportunities where technical ability, adaptability, and strong communication can contribute to a team's success.

EXPERIENCE

Frontend Developer — Vairav Tech

Nov 2024 – Nov 2025

- Worked as a React Frontend Developer intern for approximately one year.
- Contributed to the company's product, "HomeTown," as a frontend developer.
- Built reusable components and collaborated closely with senior developers on real product features.
- Used Git and GitHub for version control and team collaboration.

Computer Teacher — Mega Public School

May 2023 – Mar 2024

- Taught Computer Science, Mathematics, and Moral Education at the school level.
- Prepared lesson plans and examination papers, and managed the computer laboratory.
- Conducted practical classes and organized extracurricular activities.

News Producer — Image Channel

Apr 2022 – Mar 2023

- Prepared news rundowns and managed live news production.
- Coordinated with news anchors and the production team to maintain a smooth broadcasting workflow.

EDUCATION

BSc. (Hons) in Computing — Softwarica College of IT & E-Commerce, Kathmandu

Higher Secondary Education, Science (Physical) — Xavier International College, Kalopol, Kathmandu

CORE COMPETENCIES

Leadership

Built leadership experience through classroom teaching and academic group projects — taking ownership of outcomes, supporting others, and encouraging teamwork.

Communication

Comfortable explaining technical and academic concepts clearly to varied audiences, from students to colleagues, and collaborating cross-functionally in fast-paced environments.

Additional strengths: Project Management, Decision Making, Time Management, Adaptability

TECHNICAL SKILLS

Development: HTML, CSS, JavaScript, React, Redux Toolkit, Elastic UI, Git & GitHub

Other tools: MS Office, Fast Typing

SELECTED PROJECTS

Book Management System (RTK Query)
